I'm focused on creating
coherent experience through
research, design, and development

Mar 21 - present

UX Design Specialist - SAP Quote to Cash

As a User Experience Specialist at Quote to Cash, I primarily design the Sales Order user interface. SAP S/4 Sales Order is used by approximately 18,000 companies and is embedded in a comprehensive end-to-end process. It is very important to work with different stakeholders, like project managers or developers.

Oct 16 - Mar 21

UX Design Specialist - SAP Subscription Billing

At the beginning of my UX career, I worked as a UX Designer at SAP Subscription Billing. My focus was on complex pricing, structures such as tier or volume pricing with an emphasis on usage-based calculations. My responsibilities included leading a 6-person UX team, communicating key decisions and innovations to the team, and presenting results at global workshops.

Dez 19 - Jan 2023

Co-Founder, CDO, CTO - Internespo.com

As a co-founder of the platform, I work with my co-founder to design all the important components that a startup entails.

As the person responsible for design and research, I conducted multiple interviews with coaches, student-athletes, and parents to gain insight into the requirements for the website. These insights were incorporated into mockups, which were also planned and tackled by me in my role as CTO.

Education

M.S. Human Computer Interaction (HCI)
Bauhaus University Weimar, DE
2021 - present

B.S. Business Informatics
Cooperative State Univ. Mannheim, DE
2013 - 2016
